WITH HIS SMOOTH BARITONE SOUND,
"JKW" IS BLAZING HIS WAY INTO THE
TEXAS COUNTRY MUSIC SCENE

www.jasonkylewickens.com

JKW's full length debut album, "Red & Blue" has been making its way around the radio world, charting on multiple country music reports! This project, a decade-long diary produced by legendary producer, Dave Percefull at YellowDOG Studios showcases JKW's vocal strength as well as his melding of visualization, storytelling and reflection. There's a little bit for everyone as JKW's personal style and writing has progressed over the years so there's no reason to not have a favorite tune!

**Words are powerful,
and when combined with music, can mean something beyond measure...**

Songs convey a full spectrum of emotion, but very few find the introspection to dig deep and find what hurts. To find what heals. To find what can spark a change. Music yields an incredible understanding about life, people and what's at our core. I'm beyond excited to meet new faces, shake new hands and share music (new and old) with listeners and fans alike! With the newly released "Red & Blue" album, dig deep and find what hurts!

- Jason Kyle Wickens

"Letter To Me... the moment we rolled tape and the guitar hook came in I knew we were on to something great. And then Jason's voice..."

"I dig everything, great production and writing."
